

## **MAGNIFICENT MERCANTILE PVT. LTD.**

Heavy Lifting Solutions & Trusted Global Brands

**Since 2008, Magnificent Mercantile Pvt Ltd. has been a trusted supplier of high-performance used equipment across India.**

We serve rental firms and corporates alike, backed by a dedicated workshop near Talaja MIDC for expert refurbishing, testing, and inspection. Every machine meets top safety and performance standards, with customer satisfaction at the core.

With over a decade of experience and reliable after-sales support, we deliver not just machines—but complete, dependable solutions.

# Refurbished Mobile Cranes : Inspected, Reliable, Most suitable for Rental Companies.

25 to 500 Ton Capacity | XCMG, SANY, Zoomlion | Imported with Utmost Carefulness

- One compact 25-ton crane on a city job site.
- One mid-range 100-ton crane in industrial use.
- One high-capacity 500-ton crane on a large infrastructure project

Built for Uptime. Trusted by Rental Fleets.

We import refurbished mobile cranes from global markets, each one meticulously inspected before purchase to ensure uncompromised quality and performance.

Our cranes are sourced from XCMG, SANY, and Zoomlion, offering a range of capacities from 25 to 500 tons—ideal for rental companies serving construction, infrastructure, and industrial clients.

## Why Rental Companies Choose Us:

Detailed Pre-Purchase Inspection – Mechanical, hydraulic & structural checks

- Refurbishment as Needed – Ensuring reliability from day one
- Fleet-Ready Delivery – Minimal downtime, immediate deployment
- After-Sales Support – Technical guidance and parts sourcing.

Whether you're expanding your fleet or replacing aging units, our mobile cranes deliver performance, safety, and long-term value.

# Reach New Heights : JLG Aerial Work Platforms (AWPs) from 45 to 150 Feet

Imported from the USA, Europe, and Australia | Built for AWP Rental Fleets

## Reliable Access Equipment for Rental Fleets

We import professionally maintained JLG Aerial Work Platforms from the USA, Europe, and Australia—ready to integrate into your fleet. With boom lengths from 45 to 150 feet, these Boom lifts offer safe, stable, and efficient access for high-reach operations.

Trusted by boom lift rental companies across India, our AWP's deliver consistent performance, easy maintenance, and operator confidence.

# Truck Mounted Boom Lifts : Built for Dynamic Worksites

Up to 38 Meters Working Height | European Components | Fits Indian Chassis

## Safe Elevation for Smart Fleets :

Our truck-mounted aerial platforms combine Chinese hydraulic engineering with critical European components including angle sensors, controllers, and safety systems—to deliver precision and reliability in dynamic environments. With working heights up to 38 meters, these platforms are ideal for rental companies serving urban infrastructure, utilities, and industrial maintenance.

## Key Advantages:

- **Fits Any Indian-Made Chassis :**  
Flexible integration with buyer's preferred truck brand
- **European Electronics :**  
Enhanced control, stability, and safety
- **Fleet-Friendly Pricing :**  
Affordable without compromising quality
- **Built for Safety :**  
High standards for operator protection and job site compliance.

Whether you're expanding your fleet or upgrading older units, our truck-mounted boom lifts offer elevated performance at a practical price.
